## BACKGROUND

ICM is a leading international conference devoted to all innovative aspects of fluid and solid mechanics, fundamental and applied. The current ICM 2018 is with the merger of five conferences: 12th Asian Computational Fluid Dynamics Conference (ACFD), The 25th National Computational Fluid Dynamics Conference (NCFD), 4th Association of Computational Mechanics Taiwan Conference (ACMT), and 2nd Cross-Strait Workshop on Thermo-Fluid Science (CSWTFS). This year's conference is hosted in the beautiful ocean city of YILAN and will include a combination of nine inspiring plenary talks and parallel sessions of the latest fundamental and applied researches on Mechanics. It will

bring together researchers and practitioners from academia, research institutions and industry to exchange experiences, disseminate up-to-date information, and explore new opportunities in the field; in particular, it will expose young or new researchers to the state of the art in the field by means of the conferences. It is anticipated that the 2nd International Conference on Mechanics (ICM2018) will provide an opportunity for stimulation of the researchers as well as for furthering cooperation among the investigators in the field of thermo-fluid and solid mechanics.

## Special Journal Issues

ICM 2018 has teamed up with the Special Journal Issues. All submitted papers will have the opportunity to be considered for the Special Journal Issues. The paper selection will be carried out during the peer review process as well as at the conference presentation stage. Submitted papers must not be under consideration by any other journal or publication. The final decision for paper selection will be made based on peer review reports by the Guest Editors and the Editor-in-Chief jointly. Selected full-text papers will be published online free of charge.

## ABSTRACT SUBMISSION

Papers will be selected based on one page abstracts including results and figures. Papers submitted should include the title of the paper, authors' names and affiliations, a concise statement of the problem, method of approach, results and discussion, and conclusions. Please identify the corresponding author. Electronic submissions are strongly encouraged. Template is available from the conference website (<http://icmech2018.org>). The file size is limited to 5MB.

## REGISTRATION FEES

The fee includes technical program, breaks, technical tour, lunches, welcome reception and banquet.

Early Standard Registration US\$550  
Early Student Registration US\$400  
(After 30 June 2018)  
Standard Registration US\$600  
Student Registration US\$450
